Question: 1

What are the four reasons one might create a technical product entity in Vlocity Order Management?

A. 1. The commercial product entity cannot fully describe the product entity in terms that can be understood by the downstream systems.
2. The details of the product entity should be masked from the customer.
3. The product entity maps to a multitude of underlying products, services or resources.
4. To consolidate the number of callouts to a downstream system.
B. To adhere to TMForum / SIDs product modelling best practices.
C. To create a fully articulated product hierarchy.
D. Because Vlocity Order Management requires technical products and their attributes to describe commercial products in terms that can be understood by downstream systems.

Answer: A
