Answer: A,B,E

Question: 8

A company has just expanded its serviceable area in Europe to include coverage in Germany. As a result, many new users will need the OFSC interface screens to display in German.

Which of the following statements is correct about OFSC's capabilities for addressing this new requirement?

Response:

- A. Translations to OFSC native fields can be made using the Glossary export/import functionality, but custom properties can only be translated by exporting/importing the Properties list.
- B. Once Germany is added as an "Available Country" from the Business Rules configuration screen, then the corresponding translations can be viewed and modified via the Glossary.
- C. Translations to OFSC native fields and custom properties can be made using either the Properties or Glossary export/import functionality.
- D. Once Germany is added as a "Language" from the Display configuration screen, then the corresponding translations can be viewed and modified via the Glossary.

Answer: B

Question: 9

Which two are correct statements regarding Daily Extract file data configuration?

Response:

- A. Separate Daily Extract files must be set up for data to be used in BICS and DBaaS.
- B. Customized data sets can be created for individual instances of OFSC.

- C. Data from a single data set can be configured to be extracted in any number of Daily Extract files
- D. All data sets can be configured to include custom properties and fields.
- E. Daily Extract files cannot be set up to extract data from multiple data sets

Answer: D,E

Question: 10

Which two statements are true regarding integrations between OFSC and DBaaS?

Response:

- A. Customers with a BICS instance can use DBaaS as a data source for data migration to extend the current BICS data limit.
- B. Integration supports the transfer of OFSC data directly into DBaaS either in bulk once per day or automatically in real-time.
- C. Integration enables automatic bulk import of DBaaS data directly into OFSC as part of the Daily Upload file.
- D. DBaaS integration enables OFSC to act as a system of record for activity data.

Answer: A,B
