Response:

- A. Adaptive Image Servlet
- B. Sling Servlet
- C. Adaptive Sling Servlet
- D. Default Sling Servlet

**Answer: A**

### Question: 6

An engineer needs to apply a configuration to preview a service in the AEM as a Cloud Service development environment. What would the engineer do?

Response:

- A. /apps/example/config.preview.dev
- B. /apps/example/config.author.dev
- C. /apps/example/config.publish.dev
- D. /apps/example/config.test.dev

**Answer: C**

### Question: 7

Which OSGi property file should be created within the config folder when configuring oauth2 for a mailing service?

Response:

- A. com.day.cq.services.oauth.impl.OAuthCodeTokenAuthorization.cfg.json
- B. com.day.cq.services.oauth.impl.OAuthAccessTokenAuthorization.cfg.json
- C. com.day.cq.mailer.oauth.impl.OAuthConfigurationProviderImpl.cfg.json
- D. com.day.cq.mailer.oauth.impl.OAuthCodeTokenGenerator.cfg.json

**Answer: C**

### Question: 8

An engineer has configured SAML 2.0 in AEM. During testing, the engineer notices that the 'Default Redirect' configuration does not work for a few requests. What should the engineer do to fix the issue?

Response:

- A. The requests must not contain the 'request-path' cookie.
- B. The requests must contain the 'request-path' cookie.
- C. The requests must contain the 'location.href' cookie.
- D. The requests must contain the 'session-id' cookie.

**Answer: A**

### Question: 9

An AEM developer is trying to find logs from dispatcher modules, including filtering and serving from cache messages. What log would be used to access this information?

Response:

- A. httpd error
- B. httpd access
- C. aem dispatcher
- D. dispatcher event log

**Answer: C**

### Question: 10

You have recently onboarded onto AEM as a Cloud Service environment and there is a requirement that each dev environment has some OSGi configuration value that's different than other dev environment.

What is the recommended way to configure these values?

Response:

- A. Introduce additional runmodes for each dev server
- B. Use Environment Specific Variables in Cloud Manager
- C. It's not possible for each dev environment to have a different configuration in AEM as a Cloud Service
- D. Modify each dev environment's image to have a different configuration value

**Answer: B**
